### Arms Investigation Reports.

### Mr. SUMNER PROTESTS.

### Revision of the Pension Act.

### THE TARIFF AND TAX.

### The Bill Blocked by Amendments.

WASHINGTON, May 11, 1872.

#### SENATE.

#### KANSAS ELECTION INVESTIGATION.

Mr. MORTON offered a resolution, which was agreed to, authorizing the Committee on Privileges and Elections to investigate the election of Senators Pomeroy and Caldwell, of Kansas, the committee to have power to send for persons and papers, and sit at Washington or elsewhere during the recess of Congress.

In presenting the resolution, Mr. MORTON said: I am instructed by the Committee on Privileges and Elections to say that they express no opinion in regard to the charges made against either of these Senators, and no inference can be drawn as to their guilt or innocence from the presentation of this resolution.

#### THAT GOAT.

Mr. COLE called up the resolution offered by him yesterday asking the Secretary of War for information in relation to Goat Island, which was agreed to.

#### ACCOUNTS WITH PACIFIC RAILROADS.

Mr. CASSERLY called up his resolution asking information as to the state of the accounts between the Government and each of the existing Pacific railroads, except the Northern, which was agreed to.

#### LEAVE OF ABSENCE.

Mr. STEVENSON (Ky.) obtained for his colleague (Davis) leave of absence until the end of the session.

#### THE ENFORCEMENT ACT.

At the expiration of the morning hour the Senate resumed consideration of the bill to amend the enforcement act.

Mr. HAMILTON offered an amendment providing that as a preliminary to the appointment of election inspectors for any voting precinct, a request for such appointment shall be made by not less than eighteen citizens of the precinct.

Mr. MORTON said he had no objection to this amendment. It was adopted.

Mr. MORTON offered an amendment authorizing each Circuit Judge to appoint one or more District Judges to discharge the duties contemplated by the enforcement bill. Adopted.

Mr. TRUMBULL moved that the appointment of supervisors of election be vested in the District Judges. Lost.

#### ARMS INVESTIGATION REPORTS.

Mr. HAMLIN submitted the majority report of the French Arms Sales Investigating Committee, and Mr. STEVENSON submitted the minority report.

Mr. SUMNER protested against the report and renewed his protest against the constitution of the committee, as being contrary to parliamentary law.

A debate ensued between Messrs. Sumner, Carpenter, Hamlin and Logan. The reports were ordered printed.

#### THE ENFORCEMENT ACT.

The Senate resumed consideration of the pending bill.

Mr. CASSERLY offered an amendment providing that the words "any person" in section 4 of the act of May 31, 1870, shall be held to include any officer or person having powers or duties of an official character under that act or the one pending. Agreed to.

Mr. CASSERLY offered an amendment prohibiting the presence or use of troops in any election, unless where necessary to repel armed enemies of the United States or to maintain peace at the polls when it cannot otherwise be maintained.

Mr. MORTON said he hoped the amendment would be rejected.

Mr. CASSERLY said he had been prompted to offer the amendment by recent occurrences in an election at the navy yard on Mare Island, the occurrences of which, if as reported, ought to bring a blush to the cheek of every man who had the least regard for free institutions.

Mr. COLE said he did not know what occurrences were referred to. He had heard no complaints from any quarter about the manner of conducting elections there.

Mr. CASSERLY rose to advocate his amendment, but yielded for a motion to adjourn.

The Senate agreed that a vote on the bill and pending amendments should be taken at an early hour on Monday morning, and then adjourned.

#### HOUSE.

#### REDUCING DEBATE.

Mr. DAWES renewed his motion to cease the debate on the first section of the tariff bill, and reducing the time from ten minutes to one minute, and it was agreed to.

#### THE PENSION LAWS.

The House then took up the bill reported yesterday from the Committee on Invalid Pensions, revising and codifying the pensions.

Mr. ROOSEVELT moved a proviso that widows shall not lose their pensions by marrying again, and spoke of the philosophy of encouraging rather than discouraging marriages, whether in maids or widows. The amendment was rejected—67 to 92.

Mr. WHEELER moved an amendment that whenever a widow shall forfeit her pension on account of marriage, it will revive on her again becoming a widow if she be in indigent circumstances. Agreed to—73 to 50.

#### THE TARIFF AND TAX BILL.

Without proceeding further than the eighth section of the bill, it went over until Friday next, and the House went into Committee of the Whole, Mr. Scofield in the chair, on the tariff and tax bill. After spending nearly an hour in committee, and getting things in an inextricable tangle from a variety of amendments offered, the committee rose, and Mr. Dawes moved that the whole of the second section, embracing every thing that comes under the ten per cent. reduction, be treated as a single paragraph, so as to limit the power of amendment. That was agreed to, and then the House went into committee.

Mr. COX moved to make the reduction twenty per cent. of the present duties, except in regard to cotton goods, for which he offered the paragraph reported in the original bill. Rejected—47 to 74.

Mr. KERR moved to make a reduction of fifteen per cent. on the present rates. He said he did not believe that any horizontal reduction would operate as fairly as the present tariff. The rates were adjusted not on any principle, but as mere jobs. Still, he would rather have a reduction of five per cent. than one of ten per cent.

Mr. DAWES opposed the amendment.

After a good deal of discussion and dilatory voting, Mr. Kerr's and other amendments in the same direction were rejected.

Mr. BINGHAM moved to strike out the paragraph which reduces the existing duty on wool fabrics ten per cent., so as to leave them at the present rates. Rejected—49 to 72.

Mr. BROOKS (New York) moved a proviso that no higher rates of duty shall be exacted under the second section than sixty per cent. *ad valorem*. Rejected.

Without having made any progress whatever on the bill, the committee and the House adjourned.

## CHICAGO.

### Military Officers in Trouble.

CHICAGO, May 11.—A general court martial, of which Gen. D. S. Stanley is President, has been in session at Fort Sully, Dakota, and adjourned yesterday, to reassemble at Fort Rice on June 10th. The only case that reached trial was that of Captain L. H. Sanges, of the Seventeenth Infantry, who was tried for seduction and abortion, which resulted in the death of the girl, and a conspiracy against Captain Donovan, of the same regiment. Donovan and one or two others were the only persons who knew of Sanges' guilt. Sanges entered into a conspiracy with Surgeon Goddard, of the same regiment, with a view of shutting Donovan up on a charge of insanity. The case came up before Surgeon Goddard, who pronounced Donovan insane, and he was at once ordered to be confined in the Elizabeth Hospital, at Washington. He was taken to Washington in December last, but through the influence of his friends he obtained a rehearing in his case, and the surgeons there pronounced him perfectly sane. He was ordered back to his regiment, and has now been instrumental in bringing Sanges to trial. The findings of the court martial have not yet been made public, but he will be disgraced, and undoubtedly imprisoned for a long term. It is understood that Surgeon Goddard will be tried when the court reassembles on charges of abortion and conspiracy.

## MICHIGAN.

### Strike of Miners—Lawless Violence—Troops Ordered to the Scene of Disorder.

DETROIT, May 11.—The Detroit *Free Press* of to-morrow morning will contain the following startling intelligence from Houghton, Lake Superior:

*Houghton, Mich., May 8, 1872.*—To His Excellency, H. P. Baldwin, Governor of Michigan, Lansing: Sir—One week ago to-day a strike was organized in the Calumet and Hecla and School Craft mines by the employes refusing to work. The wages were raised materially, and all reasonable demands of the strikers have been complied with. A portion of the men have kept the whole force intimidated by threats of violence and vengeance upon all that would work, and by actually throwing rocks at men peacefully employed and driving them from their work. Many of the people are poor, and want to work, but on account of our peculiar situation in the country the civil power is inadequate to furnish them the protection that they need from lawless violence. The property of the companies is threatened with destruction, and especially the mine pumps. There is a grave apprehension of immediate danger to persons and property. We have no arms or military organization here to aid the civil power in preserving good order. The strike within the last two days has become general in the country at all the large mines. The force of the strikers organized amounts to more than 1,500 men. Threatening anonymous letters are being sent to mine agents, putting them in fear, who are expected soon with laborers from other State, and countries, and they will be necessarily destitute when they arrive, and will want to go to work at once. Reasonable apprehension exists that this lawless organization will prevent them from going to work, and I therefore call upon your Excellency for immediate military aid to assist the court authorities in the execution of processes and the preservation of property and public peace, and request that two companies of infantry be sent to this county for said object with the greatest dispatch possible. Allow me to suggest that if there are troops in Chicago, they can reach here much in advance of any others.

[Signed.] BARTHOLOMEW SHEAR,
Sheriff of Houghton Co., Michigan.

*Houghton, May 8, 1872.*—His Excellency Gov. Baldwin: I am conversant with the foregoing facts set forth by the Sheriff, and accordingly certify to their correctness.

[Signed.] JAS. O. JADY.
Circuit Judge of 12th Judicial Circuit.

The dispatch to Governor Baldwin, though dated the 8th, was not received until 2 o'clock on Saturday, the 11th, having been sent to Lansing, and been unaccountably delayed in its transmission. Immediately on its receipt, Gov. Baldwin promptly telegraphed to Lieutenant General Sheridan, at Chicago, requesting troops. General Sheridan, in reply, said that all the available troops in his command had been dispatched to Fort Laramie and the plains, and were some days on the route. Application was made to Major General P. St. George Cook, at Detroit, commanding the Department of the Lakes, who at once ordered a company of infantry from Ft. Wayne, on the Detroit river, three miles from this city. The troops are now being got in readiness, and the steamer Atlantic is being laden with munitions and equipments, and will sail at an early hour in the morning, taking on another company at Sault St. Marie. Further information received by the *Free Press* at a later hour gives rise to the belief that the disorder will spread to adjoining towns. Lest such should be the case, ample precaution has been taken. The Calumet and Hecla mines are situated sixteen miles west of Houghton. The town contains a population of 3,250, the larger portion of whom are miners. The village contains the usual appurtenances of a mining town, such as stamp mills, repair shops, immense pumps, wharves and steam riggers, and the usual number and variety of mechanics' shops. Two churches and a number of school-houses help to increase the importance of the place, a goodly portion of which is built up with dwellings owned by the mining companies.

### Minority Report on the Arms Investigation.

### THE ALABAMA CLAIMS.

### Report on the New Orleans Investigation.

### SEIZED COTTON CLAIMS.

WASHINGTON, May 11, 1872.

#### TREATY OF WASHINGTON.

The opinion is not entertained in official quarters that the Treaty of Washington is at an end, for the reason given that the correspondence on the subject with a view to recommendation is still pending.

#### MINORITY REPORT ON THE ARMS INVESTIGATION.

Senator Stevenson has presented the grounds of his dissent from the report of the majority of the Senate arms investigation. He says the testimony showed that the sales of arms and ordnance stores in question violate the statute of July 20, 1868; arms and stores were sold without proper advertisement; ordnance stores were sold which were not in possession of the Government at the time of the passage of said act, and arms were sold which were not damaged or otherwise unsuited to the military service. He cited various transactions which he claimed were wholly unwarranted by the statute of 1868. Considering the question whether arms were sold in such quantity as to impair the defensive capacity of the country, the Senator says prudence and wise policy alike dictate that the large supply of breech-loaders deemed essentially necessary to be kept on hand by Gen. Dyer should not have been diminished, lest the defensive capacity of the country should be reduced and the Government forced, in case of emergency, to look to a foreign market or private manufacturers. With relation to the sale of arms to Remington's agents, and the exchange of Gatlin guns with Colt's Arms Company, the Senator finds himself constrained to the conclusion that had there been no personal contact or understanding between the officers of the Ordnance Bureau and Remington and his agents, the least degree of vigilance would have made the former aware of the character of the proceedings taking place, especially as it was notorious that large quantities of arms and munitions were being shipped to France. Mr. Stevenson concludes by exonerating any Senator or other citizen from complicity, or any illicit transaction in this connection.

#### MEDICAL.

The President to-day nominated Medical Director Jas. C. Palmer to be Chief of the Bureau of Medicine and Surgery.

WASHINGTON, April 12, 1872.

#### THE ALABAMA CLAIMS.

While it is generally believed from newspaper statements that the treaty of Washington will fail of execution, gentlemen in official positions are not willing to make such an admission. Nothing of the official correspondence between the United States and Great Britain, which has taken place since the respective statements of the case have been filed with the Geneva tribunal, has been given to the public, but enough is known through other channels to apprehend danger to the treaty, owing to the objection of the British Government to the presentation of claims for consequential damages, and in effect asking for their withdrawal as a movement preliminary to an arrangement affecting future belligerency and neutrality, and our refusal to accede to its wishes.

Private letters from London, recently received here, say positively that the British Government will withdraw from the Geneva tribunal rather than go before it with our claims for consequential damages pending. No such threat has, however, reached our Government. The question is now where it was several months ago, when a friendly note, objecting to our presentation of that class of claims was received by the Government, the original positions of the two countries not having been in the least degree changed by correspondence. The response of Secretary Fish to the last communication received from London will not reach its destination for eight or ten days, and as the two Governments, where there is no need for haste, do not conduct their diplomacy by means of telegrams, as important errors may occur in their transmission, if for no other reason, it cannot now be said that the treaty has failed. While the executive department of the Government is committed against withdrawing the claims for consequential damages, and in effect deny that England should by implication dictate to us a modification of the American statement of the case, it does not follow that the negotiations are at an end in this condition of the misunderstanding between the two nations; and while this Government does not expect any moneyed consideration for consequential damages, but desires all claims, of whatever character, to be disposed of forever by the tribunal of arbitrators, it will continue the correspondence in the hope of removing the difficulty, so that if the treaty shall fail, the responsibility will rest with Great Britain, and not with the United States.

#### COTTON CLAIMS.

The Committee of Conference on the disagreeing amendments to the deficiency bill had a two hours' session yesterday, when the Senators agreed to abandon the amendment of Morrill, of Vermont, but the House members determined to stand by the substitute of the House. The committee will meet to-morrow with a view to reconcile the differences. The effect of Morrill's amendment is to lock in the Treasury the amount for which judgment has been entered in Courts under the Supreme Court decision, and the effect of the substitute from the House will be to pay these judgments and to require the Secretary of the Treasury to adjudicate claims for cotton seized after June 25, 1865, should the two Houses fail to arrive at an agreement on the subject. The decision of the Supreme Court fixes the status of the claimants as to cotton seized prior to June 25, 1865. All other cases stand as before. The fund to pay these claims is in the Treasury, held in trust for claimants. It amounts to near $25,000,000, of which $10,000,000 is barred by the statute of limitation. A number of prominent attorneys are here, actively working for their clients.

#### NEW ORLEANS INVESTIGATION.

The Congressional Committee recently appointed to investigate affairs in New Orleans have just handed their printed report to the President, and he has had an opportunity for the first time of examining it critically. In consequence of his examination he has requested the resignations of Casey, Collector of Customs at New Orleans, and his deputy, Mr. Herwig. There is nothing in this report to show that these gentlemen were not honest and efficient in the discharge of their duties as Custom House officers, but owing to the character of certain portions of the testimony it was thought that a change in these offices might promote the general interests of the service.

#### WASHINGTON MONUMENT.

The House Committee on the District of Columbia approve the bill appropriating $200,000 for the completion of the Washington monument. The sum of $230,000 has already been expended upon the work; $322,000 will be needed to complete the shaft, while the cost of the whole work is estimated to be $1,122,000. The committee unanimously approve the plan of this monument and of the work that has already been done, and bear cheerful testimony to the energy, integrity, economy and patriotic love which has animated and governed the transactions of the Washington Monument Society, and especially commend the design of building the monument by voluntary contributions of the people of the United States.

#### WEATHER PROBABILITIES.

Dangerous winds are not anticipated.

#### INDIRECT CLAIMS NEGOTIATIONS BROKEN OFF.

LONDON, May 11.—The *Post* this morning confirms the rumor that was current yesterday, that the negotiations between the United States and England relative to indirect claims had been broken off. It states positively that the British Government has withdrawn from the arbitration provided for under the Treaty of Washington.

LONDON, May 12.—The London *Observer* says communications have been passing between the Cabinets at Washington and London all the past week. The Government of the United States has as yet made no definite proposition of a favorable character. There is ground for hope, however, that President Grant may recommend and the Senate approve a modification of the treaty of Washington. The course of the British Government before Parliament to-morrow depends on the reply of the Washington Cabinet. Public opinion in England is averse to any action which will close the negotiations for a settlement.

#### EMPRESS AUGUSTA DECORATED.

LONDON, May 11.—The order of Victoria and Albert has been conferred upon Empress Augusta of Germany, who is now on a visit to Queen Victoria.

#### THE SAILORS' STRIKE.

The strike of sailors at Southampton and this city has not yet ended, and the seamen at Liverpool have also threatened to strike.

[Special to N. Y. World.]

#### THE TREATY OF WASHINGTON.

LONDON, May 11.—The negotiations relative to the Washington treaty are still progressing. The Tories are prepared on Monday to propose a vote of want of confidence in the ministry, unless Earl Granville's statement is satisfactory. The resignation of the ministry is highly probable in case of the failure of the treaty.

#### FRANCE.

#### PERSONAL.

PARIS, May 11.—A dispatch from Versailles says Hon. Washburn, the American Minister, this morning presented Rear Admiral James Alden, commanding the American fleet in European waters, and two officers of his staff, to Admiral Pathnan, Minister of Marine.

#### IN A QUANDARY.

The commission on capitulations declares that it finds itself incompetent to adjudicate upon the question of the capitulation of Paris. The commission, however, thinks great responsibility for the surrender of the city rests upon Jules Favre, Minister of Foreign Affairs under the Government of National Defence, and exculpates Trocha and Vinoy from all blame in the matter.

#### ADVICE TO ALSATIANS.

PARIS, May 12.—Gambetta, replying to an address from a deputation of Alsatians, said France must not speak of revenge. He advised them to adopt patience and tenacity as watch words for the future. True to a policy of which these are the key-notes, France would obtain satisfaction without resorting to the sword.

#### SPAIN.

#### HAVANA STUDENTS PARDONED.

MADRID, May 11.—A royal decree is published granting full pardon to the Havana students convicted of violating the grave of Gonzoles Castanon, in a cemetery near that city, and sentenced to the chain gang.

#### CONCENTRATING TROOPS.

Marshal Serrano will have the greater portion of the forces under his command concentrated in the province of Biscay to-morrow.

#### THE ANNUAL BUDGET.

The annual budget has been made public. The expenditures of the past fiscal year were 662,000,000 pesitas, and the receipts 348,000,000. The budget proposes to levy a tax of ten per cent. on railway fares. The tax on interest of the internal debt is retained. Legacies are also taxed, and the tax on landed property is increased ten per cent. The budget for the maintenance of the clergy is continued substantially without change.

#### MEXICO.

#### REVOLUTIONISTS CONCENTRATING.

CAMARGO, MEXICO, May 8.—Trevino, with his entire force, left here this morning for the interior, abandoning the line of the Rio Grande. He moves towards Linerares for the purpose of opposing Corela, who is coming hither to operate with Cevallos from Matamoras. Aguere and staff have joined Trevino. Trevino, before leaving, received the following from Saltillo: Diaz is in Jalisco, rapidly organizing his forces. Guerra reports officially that Rocha has suffered a terrible blow, three of his battalions having mutinied in the mountains of Durango, killing their chiefs and capturing a large quantity of provisions and munitions belonging to the Government. General Orellana has arrived at Saltillo on an important mission. Trevino states that an important movement is on foot to concentrate all the revolutionary forces and move on the Capital. The revolutionary General of San Luis Potosi recently visited Jose Morra Coricajal, living in Texas, and offered him an important command in that State.

#### THE SITUATION BECOMING MORE FAVORABLE.

TAMPICO, May 7.—Advices from San Luis Potosi to the 28th ultimo state that there are no revolutionists in the States of San Luis Potosi, Guanajuata, and Zacatecas, and that business is improving in those States. Rocha arrived at Mazatlan, and has confirmed the report of Diaz being in Jalisco. Carello left San Luis Potosi on the 25th ult., and went toward Monterey.

#### BOYS LIABLE TO MILITARY DUTY.

Garcia Agola Gomna, of Nuevo Leon, has issued a decree to the effect that all males over fifteen years of age are liable to military duty, or pay fifteen dollars per month, six months in advance. He accompanies Cevallos, and commands the troops of Cartina, who has been relieved. Cevallos' advance occupies Camargo.

#### RETURNING TO THEIR ALLEGIANCE.

The Southern part of Nuevo Leon has pronounced in favor of the Government. Francisco Valdez and Matiaz Berlando, commanding the forces at Linares and Montmolles, have declared against Trevino, in favor of the Government.

#### COMMUNICATION RE-ESTABLISHED.

MATAMORAS May 12.—Telegraphic communication was re-establised with Reynosa yesterday, and will be open to Camorgo to-morrow.

#### MOVEMENTS OF CHIEFS.

Gen. Trevino, with a small cavalry force, left Camargo a few days ago in the direction of Sinares and Monterey. Gen. Quiroga left at the same time, with infantry towards Mier, which is also *en route* to Monterey by a different route than that taken by Trevino. The revolutionary force with them was smal, unclad and in need of provisions.

General Ceballos entered Reynosa to-day. It is rumored that General Corte refuses to obey General Ceballos' orders, and will operate on his own account, and live off the country. This, however, needs confirmation.

#### CANADA.

#### THE SAN JUAN BOUNDARY.

OTTAWA, May 11.—In the House last night it was stated that the Home and Dominion Governments had corresponded on the interests involved in the question of the San Juan boundary, which had been referred to the Emperor of Germany. An elaborate statement has been prepared by the British Columbian Government and sent to England, and has been incorporated in the case.

#### THE WASHINGTON TREATY.

Debate was resumed on the Washington treaty. Mills said he did not believe that peace was endangered if the treaty was destroyed.

Sir A. T. Galt said England should not be weakened in the controversy by a refusal of Canada to consent to that portion of the treaty submitted to the Dominion. The alternative had been offered to Canada, of a compliance in the treaty or separation from England. He argued that *peace with the United States was a necessity to England*. He believed every concession to the United States was *a step toward annexation*. He favored the independence of Canada as a means of preventing annexation, and thought the position of the Dominion was one of weakness to England. He believed the peace to be endangered if the treaty was rejected, and in loyalty to Great Britain they should accept the treaty.

MacDonald stated that no pressure had been used by the home government on Canada, and disclaimed all responsibility for the utterances of Galt, who was not a member of the administration.

#### WEST INDIES.

#### THE VIRGINIUS DECLARED AN AMERICAN SHIP.

HAVANA, May 11.—The Spanish man-of-war Pizarro has arrived at Santiago De Cuba from Aspinwall, having abandoned the vigilance over the steamer Virginius, on account of the arrival of the United States steamer Kansas. After a consultation between the commander of the Kansas and the American Consul at Aspinwall, the Virginius was declared an American ship, and her commander hoisted the American flag. The instructions of the Spanish commander were to watch the Virginius as a blockade runner, and his mission terminated on the acceptance of the responsibility of the Virginius as an American ship. The Virginius left Aspinwall previous to the departure from that port of the Pizarro.

#### PEACE RESTORED.

Captain General Valmaseda has issued a decree declaring that matters in the Cinco Villas district have resumed their normal condition, and that the few bandits existing there may be considered of less importance and fewer in number than in time of peace. Consequently in future the Lieutenant Governors will only act as civil officers. The General of the department only will command the troops and Governors will be under the direct orders of the superior civil government.

#### DENIAL.

The surrender of Dr. Emilie Loales is denied.

## ST. LOUIS.

### Ratification Meeting—Photographers' Convention—A Pittsburgher Arrested—Government Building Site.

ST. LOUIS, May 11.—The canvass was opened in this city to-night with quite a large meeting at the Court house to ratify the nomination of Greeley and Brown. Enos Clarke, formerly a prominent Republican, presided. The crowd seemed to be composed about equally of Liberals, Democrats and Republicans. There was but little enthusiasm, and there was a noticeable absence of Germans.

#### PHOTOGRAPHERS' CONVENTION.

The Photographers' Convention adjourned to-day, to meet in Rochester, N. Y., on the second Tuesday in June, 1873. The Convention has been numerously attended, and was the most successful one as yet held.

#### A PITTSBURGHER ARRESTED.

A young man named S. C. Gray, of Pittsburgh, was arrested here last night for having in his possession one thousand dollars' worth of fine cassimere and other expensive goods, and about four thousand dollars' worth of diamonds, which, according to his own story, he procured under false pretense. Gray claims to be most respectably connected, his father being a wealthy merchant tailor of Pittsburgh.

#### GOVERNMENT BUILDING SITE.

The Custom House Commissioners to-day selected the block for the new Government building bounded by Tenth and Eleventh and Locust and St. Charles streets. A minority of the Board selected the block between Eighth and Ninth and Olive and Locust streets. Both blocks are far removed from the business centre.

## PHILADELPHIA.

### A Fight With Roughs.

PHILADELPHIA, May 12.—This afternoon a gang of rowdies attacked a number of peaceable Germans at Smith's Island, opposite the city. Three special officers interfered, and securing three men took them on board a boat to bring them across to the city. They were followed by a gang of roughs, and a fearful fight took place on board, in which several men were injured. The officers were severely hurt. On reaching the city other officers came to their assistance, and a running fight took place through the streets for a distance of three squares. None of the gang were captured. One of the officers had his head cut and ribs broken. Another was terribly beaten.

On Friday all day the smoke was so dense that the sun was obscured, and the united efforts of one hundred and fifty men alone saved the village of Chicester. The atmosphere was so hot at times that they had to throw themselves face downward on the ground to avoid suffocation.

## SCRANTON.

### Fatal Fire-Damp Explosion.

SCRANTON, PA., May 12.—Yesterday morning while a party of engineers were examining a disused gangway in the Pine Ridge Colliery, two miles from Wilkesbarre, an explosion of fire damp took place. ## CARLISLE.

### Fire in South Mountain.

CARLISLE, PA., May 12.—A disastrous fire has been burning for the past six days in the South Mountain. It commenced in the vicinity of Pine Grove Furnaces. To-day it is raging stronger than ever, and is rapidly working down the mountain towards Holly Spring. A large quantity of timber has been destroyed.

### POLITICAL NOTES.

GRATZ BROWN is a cousin of the Blairs, which accounts for several things.

THE Boston *Post* says gleefully that Senator Tilton will stump for Greeley. Who's he?

THE ex-Confederates of Louisville, Kentucky, are to form a Greeley Club to-morrow night.

A KANSAS CITY grocer has got ahead of everybody by already advertising "Greeley butter." And perhaps that man had a glimmer of fitness in names, for nobody wants his butter to have much strength.

THERE is quite a contest going on for the Republican nomination for Congress in the Fifth District of Maine, the candidate being Eugene Hale, present incumbent, and Frederick A. Pike, formerly the member.

THE New York *Sun*—a violent anti-administration print—admits that Mr. Boutwell has collected the revenue, reduced the debt, has not been charged with stealing anything for himself, or with allowing his subordinates to steal, has lived within his means, spent no money in shoddy display, is a Republican of the old school and never encourages peculations. This is a deserved tribute to one of the ablest and purest men in the public service.

MR. WENDELL PHILLIPS has not yet written any letter to the *Tribune* congratulating Mr. Greeley on his nomination. If we may trust the report of a recent interviewer, he is not likely to send any. When asked whom he would prefer, Greeley or Grant, the venerable agitator answered with great good sense: "Oh, Grant, by all means. I would prefer Grant to either Greeley or Adams. Greeley is not a whit better than Andrew Johnson. He is of about the same stripe, and his administration would not be a bit better."

THE Conneautville *Courier* says that the fruit prospect in that section of the country is good. The indications are favorable for an abundance of all kinds of fruit. The same paper says: We have been industriously interviewing our farmer friends for a couple of weeks past, upon the condition of the wheat crop, and their universal verdict is that the prospect for a big yield was never better. The fears that the severe weather of the past winter would seriously injure the growing grain, have proved groundless, the cold having been steady without the alternate freezing and thawing, especially during March, which is the most damaging to the crop.

DR. SCHLIEMAN has not exactly found the Troy os which blind Old Homer sung so grandly, but he has discovered a curious and inexplicable stratum of stone implements, found between layers of earthenware and other remains belonging to a higher civilization, and themselves in some cases bearing signs of workmanship which presuppose the use of metals. The owl is a favorite figure in this stone age, and Dr. Schlieman is therefore inclined to regard these ancient Trojans as the ancesters of the Hellenes, but it is almost impossible to determine the relative age of the different remains disclosed till the unequal accumulation of rubbish in different spots can be explained. The men of the stone age hunted the wild boar with very blunt spearheads, revered the phallus, and cultivated maize.

A TEXAS servant predicted a heavy frost on the 26th of April, since which date his neighbors have made it so warm for him that he has fled the State.

ANDY JOHNSON and the Democratic party of Tennessee have endorsed the Liberal ticket. Politics makes strange bed-fellows, truly.

ALABAMA is said to need "brained leaders" in political matters. Many States much more pretentious are but little better off in that direction.

THE *Tribune* calls Senator Sumner's civil rights amendment to the amnesty bill "a familiar trick." Has Greeley gone back on the colored men?

WE ARE indebted to Hon. Jas. S. Negley for bound copies of Congressional *Globe* of 3d session of 41st Congress, 1870-1871, and other valuable documents.

ANOTHER nominee for President—Victoria Woodhull—named by the Radical Reformers, with Spotted Tail for the second place. The tail is the best end of the ticket.

GREELEY gains no strength. Nine-tenths, yea a much larger per centage of the entire press of the country, are arrayed against him. He cannot possibly be elected.

BUT ONE prominent German newspaper in the United States, the *Westliche Post*, (the "organ" of Senator Schurz), heartily endorses Greeley and Brown. So much for the Missouri Senator's influence with the Germans.

THE NEW YORK *World* is bitter in its denunciation of those Democrats who give signs of endorsing the Liberal ticket. It demands a Simon Pure Democratic nominee, and repudiates Greeley as inimical to every Democratic principle of government.

AND NOW it is said that a Massachusetts hat manufacturer, who was stuck on fuzzy white tiles, of old fashioned style, made the nomination in Cincinnati of Horace Greeley in order to effect their sale by making them fashionable. So far few have been donned in this city.

THE New York *Tribune* has come out strong for Greeley and Brown. Is it therefore an "organ" or otherwise? A little while ago it stated that it despised "organs"—meaning those papers which labored for the harmony and success of the Republican party and principles.

THE "National Association of Christians," opposed to secret societies, will meet at Oberlin, Ohio, on the 21st instant, to nominate candidates for the Presidency and Vice Presidency of the United States. The movement is a very strong and respectable one. Railways generally have offered half-fare rates to parties wishing to attend.

LOCAL POLITICS have commenced to warm up. Candidates are growing as thick as blackberries in July. We urge Republicans to look carefully over the field and to attend the primary meetings, in order that a good and strong ticket may issue from the nominating conventions. At the next election we cannot afford to have a weak ticket.

NEVER before in the history of our country has the tide of pleasure seekers flowing outward to Europe, been greater. Every ship leaving our ports is overcrowded with passengers and berths to the full capacity of all the vessels combined, are booked ahead as far as August. Verily, the signs are bad for prosperous seasons at our fashionable home watering places.

THE sudden advance in gold last week is conclusively shown to be the work of New York speculators. There is no very good reason why specie should not be down to its face value, instead of advancing into higher premium. The last effort of Wall street speculators may have the tendency of bringing gold down to the starting point, making a dollar worth only a dollar, in paper or gold.

GREELEY can confidently claim no one State, unless the Democracy rally under his banner. No man in the country is watching the situation more carefully. Our word again for it, if the Democracy make a nomination, or even give certain signs that they will so do, the old philosopher will retire to his farm and rest quiet for the remainder of his days. He leans for strength on the Democratic arm; draw it away and he falls.

WE STATED in our last issue that we had private advice to the effect that Grant would not withdraw his name as a candidate for re-election. We have fresh assurance that he is in the hands of his friends, and his friends being the great majority of the people, is ample assurance that he will be our standard bearer next November. Let it be regarded as a foregone conclusion that he is in the field as our leader, so that active, intelligent work may at once be commenced.

MEXICO is about completing her first great railway enterprise, the Vera Cruz and Mexican railway. This is a certain indication of that progress which will yet develop her mines and agricultural facilities. Juarez has proven his ability to conduct great internal improvements in the midst of a revolution which taxed the energies of his people and country. Connections will ere long be made with our railway lines, bringing the United States in direct communication with the land of the Montezumas.

THE ANNUAL tribulation visited upon the Central Board of Education, is again upon the devoted members of that fatherly body. We urge that no change in text books is now needed; that the entire system of public education is being damaged by the fre- [illegible] these dishonest changes. The books now in use are very good ones, and if the scholars can only manage to learn what they contain they will do very well. These changes to enrich book-makers have been much too frequent, and we earnestly call on all directors to put a stop to a system that so heavily taxes the parents of children in our free schools.

IN good time Republicans will find who are the "responsible" and "reliable" gentlemen that forge telegrams, call Republican meetings, and rush about with the Beaver *Argus* in their pockets to thrust it in the face of the startled Pittsburgh editor.—*Radical.*

We are not in the least "startled," neighbor. We retain our equilibrium and self-possession as usual. The barking of poodles never disturbs or "startles" us. We pass through such *ordeals* every day, and we still live, as you have good reason to know. The only evidence that we have seen of any one being "startled" is the frantic shriek of the little corporal in the editorial columns of the last *Radical* but one. Fire away beauty.

WE understand a proposition is to be made to have Mr. Dravo and Mr. Rutan stump the county in company. The gentleman who signed himself "Many Republicans" in the *Argus*, will probably accompany them with a hand organ and a monkey, and the Pittsburgh *Gazette* will furnish a reporter.—*Beaver Radical.*

Yes, he shall be on hand, and report any thing interesting to the readers of the GAZETTE, a large number of whom reside in the counties of Beaver, Butler and Washington, whether Rutan and *his* monkey—the little corporal—shall put in an appearance or not. But we will wager a big pipin, that friend Rutan will never meet Dravo on the stump. He knows better, as John is a little too much for James, and the latter is wise for acknowledging it and staying at home. Dravo's speech on Friday night at New Brighton, was a crusher to the hopes of the little corporal and his friend.

MR. BROOKS, of New York, a free-trade member of Congress, and of course a Democrat of the "deepest die," as the *Post* would say, complained the other day, in a speech on the tariff bill, of the duty of 37½ per cent. on potatoes. The tariff on potatoes is 25 cents a bushel, levied for the protection of our farm product against Canada. Now, as potatoes are sold in many places in the Western and Middle States at 25 cents per bushel, the argument of Brooks would go to prove that if the duty of 25 cents per bushel were removed, we could buy our potatoes for consumption for nothing. If the reduction of the tariff lessens the price of an article in a like amount, then by the abolition of the duty on potatoes, when they are only worth 25 cents a bushel, farmers would get just nothing at all for this portion of their crop. That is logical as we understand it. The same can be said of the tariff on wheat, which is twenty cents per bushel. Suppose it were stricken off, would flour be $1.00 per barrel cheaper? Free-trade absurdities often lead anti-tariff men into just such difficulties, but they don't confuse an honest, intelligent farmer or working man.

## T. BUCHANAN READ.

The telegraph brings the unwelcome news of the death of Thomas Buchanan Read, America's gifted poet-painter. After a lingering illness, he was finally summoned to his last sleep yesterday (Sabbath) morning, in the 51st year of his age. Mr. Read was born in Chester county, Penna., March 12, 1822. At the age of 17 he went to Cincinnati, and commenced his art studies in a sculptor's studio, but soon after devoted his genius to painting. In 1841 he removed to New York, and subsequently to Boston, where he continued the study and practice of his profession, devoting himself mainly to portrait painting. He afterwards took up his residence in this, his native State, at Philadelphia, and in 1846 he visited Europe, where he remained until 1850, devoting himself closely to his chosen studies. His first volume of poems was published in 1847, at Boston, which was followed in 1848 by another collection, entitled "Lays and Ballads."

Since then he has given to the world some excellent poems, many of which appeared during the late war, and stirred the loyal people to acts of patriotism. Among these the most noted, perhaps, is "Sheridan's Ride," well known to all our readers. The "Closing Scene" is, perhaps, his finest poem, and we rank it the full equal of Gray's Elegy, which it is not unlike in tone and sentiment. Many of our readers remember Murdock's thrilling recital of "The Wild Wagoner of the Alleghenies," and "Sheridan's Ride," which probably more than anything else gave their author his merited celebrity. He has, at last, witnessed that "Closing Scene" which he so beautifully and touchingly pictured, and which sooner or later we all must partake of. He has left a name which will be cherished by a grateful people—probably "one of the few, the immortal names, that were not born to die."

## THE SITUATION.

From present appearances there is much more likelihood of a decisive split in the ranks of the Democracy, growing out of the Cincinnati nominations, than in the Republican party. Many good Democrats favor the nomination of Greeley and Brown, say they will vote for them, and insist that their party should endorse them. Others, and apparently the larger portion, headed by the *World* repudiate Greeley, and treat his name and nomination with derisive contempt. Many of these say, as between Grant and Greeley, they prefer and will support the former, and under no circumstances will they vote for the latter. On the other hand the Republicans are united almost universally upon Grant as their candidate; the Cincinnati movement having failed most signally to produce the wide-spread dissatisfaction that was fondly expected by its prime movers. We believe that no candidate ever before in the history of the country, had a stronger hold on the rank and file of his party, not even General Jackson or Abraham Lincoln; and this has been quietly acquired by good works, rather than by an effort or a struggle on the part of our President. He has made no effort that the public have heard of, employed no device or agents, asked no one to support him for the position, and yet so well have his labors pleased the people, that he will be triumphantly elected, without doubt, against any and all opposition, and every possible alliance that can be formed.

Therefore it is unimportant what move shall be made on the political chess-board by those who oppose him. Greeley may conclude to remain in the field, in the face of a Democratic movement, and a third nominee, or he may withdraw; the result will be the same. General Grant, we believe, is strong enough to defeat all comers, no odds what their number. But we do not believe Greeley will so act, neither do we believe that the Democrats will endorse his nomination. We are firm in our belief that another ticket will be nominated at Baltimore, and on such an appeal to patriotism as this act shall make, Mr. Greeley will withdraw, and throw his support for Grant. This is certainly the present aspect, as we gather it from all sources, and it is certainly the patriotic and therefore the proper course for Mr. Greeley to pursue. He is opposed to the re-nomination of General Grant, as he undoubtedly has a right to be; he would defeat his re-nomination by every honorable means in his power; but failing to do that, he has no desire to defeat the purposes and policy of the great political organization, with which he has been identified since its birth, and place Democrats in power. Therefore, are we quite sure, that when the time comes for making a decision between the Republican nominee and a Democrat, between a just tariff and free-trade, between the party of loyal Unionists, and that of the "lost cause," the great heart of Horace Greeley, which is always true, will send him within the fold of his friends, wherefrom he never should have been driven.

This, we believe, will be the end of the opposition to Grant. The country demands his re-election and no alliance can be formed among politicians which will either secure his withdrawal, or prevent his re-election. It is sheer idiocy to talk of his withdrawal, and we are amazed to find sane Republicans seriously discussing such an impossible event. The people, placing full confidence in his integrity and judgment, would at once prevent any such an effort being made, and they will undoubtedly place him, for another term, at the head of the government.

## FIRST PURE.

Mr. Poland has proposed an amendment to the Federal Constitution, which provides that no Senator or Representative in Congress shall, during the time for which he was elected, be eligible as President or Vice President, nor shall a Judge of any United States Court be chosen to either of said offices, while on the Bench, or at any time within two years after the expiration of his official term. We cannot favor this amendment, as it pre-supposes that our Judges, Senators and Congressional Representatives are men who would act dishonorably to secure the higher position. We can see no earthly reason why a man who has secured the eminent distinction of a seat in either branch of Congress, or upon the Bench, should be thereby debarred from further honors if the people see fit to promote them. It is silly to argue that the positions held enable such officers to engage in intrigues for their own advancement. We have too much confidence in the sterling good sense of the American people, and particularly of the Republican portion of that people, to permit us to indulge in the belief that an improper or dangerous man will ever be permitted to occupy either the Presidential or Vice Presidential chair. The following view taken of this question by the *Press* we wholly dissent from, and stigmatize it as the essence of fear, and the illustration of its lack of belief in the honor and honesty of our public men:

This amendment, if adopted, would confer several blessings upon the nation. It would improve the character of our legislators and legislation. The talents now devoted to intrigue would be turned to the service of the people, and there would be fewer politicians and more statesmen in Congress. The Supreme Court, too, would be improved. We would have no partisan judges; we would not see the ermine of our highest judiciary dragged into the mire of politics, nor grave and ought-to-be reverend justices bidding for Presidential nominations.

We don't believe a word of it; we utterly repudiate the insinuation against the "ermine of our highest judiciary" or the statesmanship of our representative men. On the contrary we deem it altogether honorable for a gifted man to aspire to a position where his genius or talent shall have full scope, but this should be always in an honorable way. The Judge or the Senator or member of Congress who would *dishonorably* strive for self-aggrandizement would not lack an inducement to continue in wicked ways by the passage of this amendment. To be sure he could not immediately conspire for his own promotion to the higher office, but his evil heart would not thereby be cured of its disease. On the other hand the country might often be denied through this amendment of a valuable and useful Executive.

## MATTERS OF MOMENT.

EXAMINATION DAY.—Undertakers are cheerful; the children in our public schools have commenced "cramming" for examination day.

"PRACTICAL RELIGION."—Theodore Tilton, in an editorial of the last *Golden Age*, tries to tell his readers something of "practical religion." Just as though he had a practical idea of anything.

AMERICAN ENTERPRISE.—American enterprise keeps in the advance. Before Captain Hall, all other northwest explorers haul in their colors, and Stanley, the *Herald's* correspondent, distances the Royal Geographical Society, and brings in the living Livingstone

THE MAY ANNIVERSARIES.—May is the time for the anniversaries in New York—each society indulging in one of those festal occasions. The meetings of the Methodist Conference and other bodies, just now have drawn to the metropolis, some of the finest orators in Europe and America, and the people have almost a surfeit of eloquence.

THE OHIO.—Another call has been issued for a meeting at Cincinnati on the 26th, of representatives of the several States interested in the improvement of the Ohio river. It is to be hoped this gathering will show an improvement upon its predecessors and that it will submit a practical plan for the speedy improvement of this great national highway.

MUSIC IN THE PARK.—Are we to have music in the Park this season? It's about time now for the music of discussion over the matter to commence. As the first note, we hear that the old proposition is to be revived—to generously allow the Passenger Railway companies to "pay the piper," as they are the most benefitted in a pecuniary sense. We believe it would pay the companies to sustain these concerts.

RACING ON THE OCEAN.—The Bohemians are excited over the expectation of "another horror" since they have heard that sea captains have taken to racing over the ocean, *vide* the last trips of the Adriatic and City of Paris. The vessels started from New York April 27, and arrived at Queenstown in a few hours over eight days. It's pleasant for tourists to hear that they are liable to the sensation of a "blow up" similar to those which have made steamboat travelling on the Mississippi so attractive.

MECHANICS LIENS.—Mechanics liens have been a source of great trouble to house-builders, but the new law which goes into effect June 1st, 1872, will remedy some of the evils of the old practice. By the new regulation a man who makes a written contract with the builder and pays the stipulated price for the work, can lean upon that contract for support against any liens, which the men employed by the builder, or those who furnish the material, could otherwise bring against the building when completed. The parties who furnish the material are thus compelled to look to the contractor for their pay, and cannot come back on the house-owner, after he has once paid the contractor.

### Living Out of Town.

The New York *Tribune*, in a recent editorial on "City Business and Country Living," makes some capital hits at the inconveniences attending living in the country and doing business in New York. Those who have tried the thing in the suburbs of Pittsburgh will appreciate its salient points. The *Tribune* says: In the country places there must be much carrying to and fro of market baskets. The more rural the place the hungrier the children will be and the less there will be to eat. The New York markets may, at least during the first few seasons, contain all the berries and beef. It is a mistake to suppose that all the milk is watered in New York. Country butchers charge more for meats than is charged in New York, and the best butter, berries and vegetables are sent to the markets of New York, which take them in large quantities. There are green-grocers in country villages who do not know of the existence of such articles of luxury as asparagus, cauliflowers, or fat raspberries. The autocrat of the country is a ruthless pedler with a tin horn. If one markets in New York he will have to carry his own basket, unless he is witty enough to give a baggage-master a small commission to make the purchase. Yet it is true that there are very many healthful, pleasant, sociable, and easily attainable neighborhoods in the country near New York, and that any man who has from two to three thousand dollars in cash may own a house and a small plot of land worth four or five thousand dollars. In two years with a spade and the ambition to spend some of his leisure hours in the woods, he may make his home worth more by a thousand dollars than its value under the natural increase. But he will meet with discouragements; he will commit many blunders; he will find many demands on his time and his labor; and in the end he may only partially succeed in realizing his dreams. To many men with wives and children, the task may be worth undertaking, but only to such as do not vainly imagine that they are fitted for what is found only in the descriptions of the horticultural journals.

### Japanese Paper.

While we are about to teach the Japanese farming, they are able to reciprocate the favor by teaching us what they know about paper making. And this is not a little. They have paper which is waterproof, and of which garments, handkerchiefs, hats, umbrellas and purses are made; also paper warranted to wash, and of sufficient strength and pliability for any use. The British Government has presented reports on this manufacture to the English Parliament; it is to be hoped that we may be equally favored by our officials.

### What She Thinks of It.

She says: I have just come in from the street, and I am exasperated, furious, savage, in short, I am in a passion, and if I could have my way—

"But what is it all about?" you ask.

Well, just look at the bottom of my dress skirt. Does it look as if it belonged to a decent woman, or to a tramp? All draggled and splashed, and dripping over my my nice kid boots. Can you fancy anything more abominable? All the morning I've been in a simmer about it, for I've been in the lower part of the town, where there are black pools of the nastiest dirt at all the crossings, and where the middle of Broadway looks like a miniature Lethe. It isn't mud, this horrible mixture that clings to me; that won't brush off my shoes, and that attaches itself so pertinaciously to the fabric of my dress that it is well nigh ingrained in it. No, this is a paste composed of the filthiest filth of the city; and I have appreciated the fact every time I have stopped at a crossing this morning to gather up my drapery bunglingly with one hand, the other being devoted to my muff and a bundle, and felt that I was not half-doing it, and knew, as I waded out into the slush that my skirt was sopping up all these abominations, and carrying them to my clean white stockings. Then I thought some bitter things, I can tell you!

My street dress is not a demi-train. I am not quite so much of an idiot as that amounts to. It is made just as short as the present style will allow. But it is altogether too long for the street, for it touches the dirt, whereas it ought to clear entirely. Then I shouldn't be bothered with thinking of my dress on the street. This comparative felicity of fashion was granted to every woman about a year ago; but it has been her will to withdraw it from her humble slaves, and now if, in defiance of custom, I should have my dress made as short as I wore it three years ago, I should probably subject myself to unpleasant misapprehensions in public. I have to choose between that and comfort and cleanliness. And this is why I am so angry. Why will the women be so foolish, I should like to know, as to let their dressmakers, instead of their own common sense, decide in such matters? You say that I am one of them, and that I ought to set the example. As if it would do the least good! I might go about with my dress shortened to my ankles, to my heart's content, and get laughed at and stared at and jeered at and perhaps worse treated, for my pains; but as long as so-called French dressmakers and women of wealth shall decide that dresses must sop up all the nastiness of New York streets, I should have no followers. And if I have to elect between a soiled dress and being allowed to go quietly, without notice, on my way through the streets, I shall choose the former. But I don't like it, all the same. I want to know if there is any woman does—especially those who have to clean their own dress skirts? Oh, how many times have I, over this nasty work, vowed I would never again go on the street with my dress touching the pavement; And then how I grew cowardly the very next time I went out, and stealing into a corner stealthily took out the pins which held it out of the dirt, hoping that I should find clean spots to walk in, only to be deceived as usual.

And just so long as I have to endure this mortification of spirit, it is useless to talk to me about giving women any more rights. They already have a right to dress themselves as they choose, and they abuse it shamefully. They have the right to dress themselves in decent, not over-costly garments, made in a sensible manner. Do they do it? Let me see them making a proper use of what rights they already have before you talk of giving them any more!

And I never will believe they are fit to have anything to do with business or politics as long as they haven't sense enough to lift their skirts out of the dust and the mud. I should like to see a man admitting to that sort of thing! The idea of sweeping into Wall street on a muddy morning in a train a quarter of a yard long! There! That will do. I am too angry to say any more, and I must go and clean the mud from the bottom of my dress. Ugh!

*An after thought.*—Which comes to her while she is grumbling and brushing with all her might and holding her head on one side—with her nose very much turned up—to avoid the cloud of dust which rises from the desecrated garment.

It is the hight of stupidity to have any dress which is intended to be worn on the street made so long that you must pin it up any time. The pins tear the dress or slip out. Why not have a long skirt for the house and a short one for the street, if you are so much of a peacock that you can't rest unless you have something dragging along after you?

When I come to think seriously about, it a short dress for the street is more modest than a long one. It may be shortened to the ankles, but still it is the more modest of the two; for there is no occasion for lifting it. How is a woman to calculate just how high to lift her dress when she is in a hurry? In nine cases out of ten she either lifts it too high or she doesn't lift it high enough. On one side she shows more boot-top and white stocking than she has a mind to, and may provoke a passing leer; but, on the other side, the drapery flops down into the mud or dust, and thus she is a disgusting object all around. Oh, fie! I haven't any more patience!

HOWARD GLYNDON.

### Color at the Dinner-Table.

Let us, then, not be afraid to go an inch out of the beaten track. Let us not fear to place occasionally, when laying out our table, a dish awry, just to take off that sense of immaculateness, untouchableness, that the measured formality of a dinner-table always gives one. Let us even sometimes assert our independence by having an uneven number of dishes, or dishes of an irregular height placed along the snow-white cloth. And why is the cloth to be always snow-white? Why should not a colored border, fringe, or stripe, be introduced to break the blank spotlessness of that inevitable cloth? Again, the extreme fineness of the table-cloth is a point of pride with the modern house-wife. Let the design be what it will, the cloth must be very fine. Now, a very coarse cloth, provided the pattern upon it be handsome, has not a bad effect; on the contrary it is far more pleasant to the eye than too fine a one. The napkins, which are theoretically supposed to wipe the fingers or the lips upon, but which, through their weight and stiffness, never answer the purpose—ought to be fine; the table-cloth should be rather the reverse. A handsome diaper is probably the most appropriate pattern for a damask cloth, and it is sure to tell if the cloth is not too fine—borders or stripes of every variety, might with advantage be introduced in them. Let me also pray such hostesses as wish their table to be beautiful, to dispense with the modern white wine-glasses, which however perfect of their kind, are quite uninteresting to an artistic eye. The antique Venetian glass, so exquisite in color, so delicate and picturesque in form, so light, yet hardly so fragile as the modern best glass, as the latter from its weight as opposed to its thinness, must smash if it falls, and the former may not—the antique Venetian can hardly be procured now in sufficient quantities to cover a table, or at least by ordinary purses. But the modern imitations of it, by Salviati, though usually not equal to the old, are quite near enough to be very beautiful on the table, and within the means of most dinner-giving people.—*St. Paul's Magazine.*

### Canadian Emigration.

By the lately issued report of the Commissioner of Agriculture for the Province of Ontario, it appears that the total number of immigrants who arrived from the old countries and remained in that province during the year 1871, was 25,842, as compared with 25,290 in 1870, and 15,093 in 1869. During the last six months of 1871 there arrived at Quebec fifty-one steamers and five sailing vessels, under the provisions of the Imperial Emigration Act. The total number of steerage passengers by these vessels was 11,985, of whom 7,067 were English, 1,217 Scotch, 1,049 Irish, and 2,652 foreigners. Of these, 1,318 settled east of Toronto, 4,091 arrived at Toronto, and 1,154 settled west of Toronto, making a total of 6,562 who entered and remained in the province of Ontario direct from Quebec; 1,258 settled in the province of Quebec, 28 in New Brunswick and 3,486 came to the United States. The last item is a suggestive one, and is Commented upon at some length by the commissioner, who believes that some measures should be taken to retain all emigrants in the Dominion.

### Died from Joy.

Among the passengers from Germany in the steamer Rhein, which arrived at New York port on Saturday, was Conrad Autenrielle, aged 71 years. With him were three daughters. They came to join his seven other children, who had long since come to this country and prospered. He was met by his brother, and was greatly affected with feelings of joy. One of his sons dwells in Hudson City, New Jersey, and four sons and two daughters reside in Newark. Arrangements were made to hold a family reunion in Newark yesterday, and in the meantime a visit was paid to the son in Hudson City. While there the old man became childish in his joy at having his "kinder" once more around him, and was unable to restrain his feelings. Suddenly about o'clock he startled his loving children by exclaiming, "Have I really seen my children?" and he fell back powerless. A doctor was sent for, but by the time he arrived the "lamp of life had fled." The old man actually died from overjoy.

—A Washington special says: Information has reached the Navy Department that Morro Castle, guarding the entrance to the Havana harbor, is being rapidly strengthened, and that fifteen inch guns, pointing seaward, are now being put in position.

### THOSE FOOTSTEPS.

In the quiet hush of the tender night,
When my eyes fill up with tears,
Comes my darling to me, all golden bright,
With the sunshine of three sweet years.

And he smiles as he climbs to his seat on my knee,
To whisper his childish mirth;
Then clasps my neck—though you may not see,
For my darling is not of earth.

Only within the twilight gloom,
When the hours are long and sweet,
I hear all about in the lonely room
The patter of little feet.

Patter of feet that come and go
With a sweet yet restless will,
Just as they did a month ago,
Ere they grew forever still.

And my heart, at those spirit-sounds that seem
So near yet so far away,
Glides into the faith of a sweet love-dream,
That follows me night and day.

And this love-dream, tender and ever sweet,
Still whispers soft and low—
"Keep thou in thy heart these tiny feet,
And follow the way they go."

Then my heart sinks down as a leaflet will
When the winds are into their rest;
And I bow with clasped hands, and still
The footsteps are in my breast.

## JOURNALISTIC.

THEOPH. C. CALLICOTT, ex-Speaker, etc., has retired from editorial charge of the Albany, N. Y. *Evening Times*.

THE Pittsburgh *Advertiser* edited by one of the youthful fraternity is flourishing, and presents an improved appearance.

IT is rumored that Whitelaw Reid, John Hay and W. F. G. Shanks, of the *Tribune*, intend to start during the coming season a new illustrated magazine, devoted to material interests, fashion and general literature.

W. C. PLUMMER has resigned the editorship of the Titusville *Courier*, to take charge of the Tidioute *Journal*, as his own. He leaves the *Courier* Saturday. He is one of the ablest editors in the oil regions.

MR. D. C. DAVIS, editor of the Osceola, Mo. *Democrat*, got a man to attempt his assassination the other night, just before he went to press, so as to take in the rival paper. The accomplice didn't aim badly enough and "vaccinated" Mr. Davis generally. He was too much hurt to write up the affair, so the opposition paper got the item exclusively.

THE *Silent World*, published at Washington, D. C., is the organ of the institutions for the deaf and dumb, and bears the Shakespearean motto, "In dumb significants proclaim your thoughts." The publishers inform us there are 35,000 deaf and dumb persons in the United States, and 44 institutions for their education, each containing on an average about 150 pupils, nearly all supported by the State governments.

## LUNG DISEASE.

People who suffer from Lung Disease of whatever kind, especially those which have become chronic, need to know one important truth, and that is: that medicine should be taken long enough to renovate the whole system, that is, to renew the tissues and restore the functions to harmonious action. Thousands of sufferers from chronic ailments of various kinds, who feel a languid, lingering sickness nearly all the days of their existence, could be restored to pristine health by the use of a dozen bottles or so of Dr. Keyser's Lung Cure at a trifling cost, not to be compared with the benefit derived from it.

Vigorous and robust health are surely of sufficient importance to make those in want of it investigate seriously what we say about Dr. Keyser's Lung Cure. A gentleman of great ability and known integrity in writing about this medicine says:

"I am happy to say that my wife has experienced great benefit from this medicine, Dr. Keyser's Lung Cure, being nearly restored to perfect soundness in her chest."

This is but a sample of the cures we hear of every day by Dr. Keyser and his Lung Cure.

Dr. Keyser's office, 167 Liberty street, from 10 A. M. until 1 P. M., and from 3 to 6, and Saturday's at night.

A treatise on Chronic Lung Diseases sent by mail wherever it is wanted.

## HOW NOT TO DIE.

Thousands fall a prey to disease not because the maladies that affect them are necessarily fatal, but because they lack the requisite amount of active vitality to make a valiant resistance to the enemy. It is a wise precaution to keep the body always in a state of defence—always prepared to "fend off" the germs of epidemic and other disorders, and to baffle the evil influence of damp miasma and sudden thermometrical changes. There is no difficulty in doing this. It is a fact as well authenticated as that two and two make four, that Hostetter's Stomach Bitters is specially adapted to this purpose, and for the simple reason that its invigorating and regulating properties are superior to those of any other medicine in the world. During the twenty years that it has been in general use, ample opportunities have been afforded to compare its medicinal properties with those of other preparations claiming to be of a similar class, and the result has been its adoption by the American people as the standard tonic of the age, its introduction into every civilized portion of the western hemisphere, and an annual sale which dwarfs into insignificance the demand for all its would-be competitors.

The record upon which its popularity rests is a curiosity in medical literature, for it includes an almost unlimited variety of human ailments and disabilities. In fact, no other remedy possesses such a variety of hygienic virtues, and it is to these characteristics that it owes its prestige as a household medicine.

ST. LOUIS MAGNETIC SPRING WATER.

50 cases just received at
JAS. E. BURNS & CO.'S DRUG STORE,
Corner Penn and Sixth (old St. Clair) streets.

St. Louis Magnetic Spring, discovered 1869, St. Louis, Gratiot county, Michigan.

This most wonderful spring is attracting, from its novelty and peculiarities, the attention of the world. During the summer of 1869, while the Company were boring for salt, a vein of water was struck, flowing with such force as to throw the stream several feet above the surface. It was found to carry a powerful current of Electricity or Magnetism, which marks it as one of the most wonderful of nature's curiosities. The water has been proved to possess most remarkable curative properties, being particularly effective in cases of rheumatism, paralysis, gravel, kidney complaints, dyspepsia and nervous diseases.

## FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, May 11, 1872.

The closing day of the week is merely an index of those that preceded it. There is still considerable inquiry for money, and while some of the banks have all their customers need, others find it extremely difficult to supply the legitimate demands made upon them. The prevailing impression, however, is that from now on until the close of summer, money will be plenty and rates low, if not governed by artificial influences. This country, as development goes on, grows every day richer, and all that is required to make it the most wealthy and potential of all nations, is a strict adherence to the old Whig, and now Republican, doctrine of protection. In illustration of our correctness on this point, we need only refer to the progress of the iron industry in the Northwest, under a moderately protective tariff for the past ten years. The census of 1860 gives a total of 76 blast furnaces located in Ohio, Indiana, Michigan, Illinois, Wisconsin and Kentucky, and 24 rail, bar, sheet and boiler-plate mills, with a capital of $3,370,000, employing 2,804 hands at a cost of $1,094,160, and producing 85,273 tons, of which 40,000 tons were rails. In 1870 three works alone in these States have invested more than the whole capital in 1860, employ 2,800 hands at a cost of $1,556,000 in wages, and produce 100,000 tons of rails, 90,000 tons of pig, and 10,000 tons bar and plate iron. The three great iron States of the Northwest, Michigan, Wisconsin and Missouri, with a population of 2,700,000 souls, in 1860, had but 13 furnaces, yielding 34,200 tons of iron. Now, two only of the furnaces built since produce more iron per annum than the total product of these three States under free-trade, thus showing that protection in some way is essential to the well being and prosperity of the American people. The decline noticed by us a few days since in Penna. Railroad stock, was owing to a watering of the stock. The plan adopted is to increase the stock thirty-three per cent., allowing present stockholders to take stock in this ratio at par. Trade continues good, the transportation of the country daily increases in magnitude, the roads leading from our city are over-burdened with freight and find their rolling stock inadequate for the demand made upon them. The Pittsburgh, Cincinnati and St. Louis Railway Company have ordered 80 locomotives to be constructed this season; the Allegheny Valley Railroad Company have just received ten new locomotives, and to meet the increasing demand for motive power, we understand, Col. Phillips has closed a contract for fifty more, which we opine will be none too many to accommodate the trade when he gets his Bennett's Branch open.

In local stocks the transactions are light. We have the following sales to report:

NEW YORK, May 11, 1872.

Gold was strong early in the morning, selling up to 114⅜, but gradually declined and closed steady at 114@114⅛. Loans were from 4½ per cent. for carrying to 1-64 for use. Clearings $75,000,000. Exports to-day $239,450; exports for the week $4,064,000. Governments strong and higher. Stocks strong; prices advanced from ⅛ to ¾ per cent, chiefly in Northwestern, Pacific Mail, Ohios, Western Union, Indiana Central and Rock Island. The market closed active and very strong. The *Commercial* says cable dispatches are pretty positive in saying that the treaty of Washington is virtually lost. If so, the end of wrangling about it is likely to be a benefit to the various financial markets, which do not thrive on anxieties and uncertainties.

Bank statement shows a net gain of $194,025. In legal reserve the banks now hold $6,065,275 above the 25 per cent. required by law. The following shows the changes:

Some dealers are holding choice Minnesota baker's flour at $9,25. Rye Flour is quiet and unchanged at $5,75@6.

GRAIN—There is a continued good milling demand for wheat and prices are still tending upward; we can report sales of prime to choice red winter at $2,10 to $2,15; and No. 2 spring at $1,85. The receipts continue light and the supply even at the advanced prices is not equal to the demand. Oats are firm and the tendency is upward, though as yet there are no sales reported at any advance; we continue to quote at 52 to 53—sale of 1,000 bushels free in elevator at 53—some dealers are now holding at 54 and even 55. OFFICE OF PITTSBURGH GAZETTE,
SATURDAY, May 11, 1872.

Trade in petroleum has been moderately active this week, and prices, as compared with last week, are higher. The refined market opened up strong, and June and July could probably have been sold at 24¼, at least refusals were eagerly sought at this figure. We can report sales of 3,000 barrels last half of May, at 23¾; and 1,500 bbls seller 1st half of June, at 23¾. Late in the day, the market was reported weaker, with offers to sell May at 23¾. ### Iron Markets.

NEW YORK—The market for Scotch Pig continues as about last noted. The stocks are very light, though considerable is on the way, and may be expected at any moment. We quote about $49 to arrive, though small lots for immediate use cannot be had under $53@55, but these prices are hardly a criterion of the wholesale market. We quote Eglinton and Glengarnock about $50@52, with 300 tons Eglinton and 100 do. Glengarnock at $50. American continues firm at 48@50 for No. 1 North River, and 55@52 for Lehigh; we quote No. 2 $43@51; we hear of no sales. Rails are in fair demand; about 2,000 tons English have been sold for future delivery at Southern ports at $76 gold. In Scrap, we note sales of 500 tons from yard and to arrive at $59@60, cash. Refined Bar has not varied here (or elsewhere so far as we have learned), the demand being moderate, and prices steady and and firm. Singles sheet are quoted £16 by last steamer.—*Shipping List.*

BALTIMORE.—The market for Pig is less buoyant but firm, with fair demand. For Anthracite prices are unchanged, and we still quote as follows, viz: No. 1 $59, No. 2 $49, No. 3 $48, but Scotch is scarce and higher, and we now quote it at $52@53 for Eglinton, and $55 for Gartsherrie per ton ex ship. Charcoal Forge we quote at $56@60 per ton, but there is no stock on the market.

PHILADELPHIA—Pig Iron is less active. Sales of No. 1 foundry at $50@51; No. 2 at 48@49; gray forge at $47,50@48,50; Scotch Pig at $49@50, and mottled at $46@47 ₩ ton. Old rails sell for shipment at $53@54 ₩ ton, and nails at $5,65 ₩ keg.

### Wool Markets.

PHILADELPHIA.—There is very little doing and prices favor buyers. The sales include Ohio, Pennsylvania and West Virginia, super Saxony fleece at 82@83c; full blood merino fleece at 82@83c; three-quarter blood merino fleece, 80@82c; common fleeces, 75@78c; tub-washed, choice selected, three-eighth grade, 85@87c; well-washed, 83@84c; fair ordinary, 80@81c; low or burry, 75@78c. Domestic pulled, city merino, 75@78c; city super, 70@80c; western, 68@78c. California, fine, 37@40c; medium, fall clip, 40@48c; burry, fall clip, 30@33c. Colorado and New Mexican, fine and medium, choice selected, 48@52c; fine and medium, washed, 45@50c; common washed, 42@43c; black, 33@35c; unwashed, 35@42. Texas, fine selected, free from burrs, 43@45c; medium selected, free from burrs, 42@45c; low, 38@40c.—*Gazette.*

NEW YORK.—There has been rather more inquiry within the past few days, but the light stock of both descriptions, poor assortment, and high prices, as viewed from the Manufacturer's stand-point, prevent much activity. Stocks accumulate somewhat, and there is rather more disposition to meet buyers than there has been; strictly choice lots, however, are very scarce, and command full previous prices. A few bales California Spring have arrived, and the lot is held at about 60 cents. Sales have been made of 25,000 lb. Georgia at 55@75 cents; 2,500 lb. Black, 50; 2,000 lb. Fleeces, 78; 1,000 lb. fine sorts, 80; 19,000 lb. super Pulled, 75@85; 20,000 lb. medium unwashed, 60; 5,000 lb. extra Pulled, 73; 11,000 lb. Spring California 39,000 lb. super Pulled, and 15,000 lb. medium unwashed, on private terms. The unusual premium now current for gold, stiffens the market for those kinds that are usually sold for currency, while the fine descriptions that are sold exclusively for gold, are, if anything, rather in buyers favor. South American and Mediterranean Wool moves slowly, but fine Cape and Australian descriptions are in pretty good demand.

### Dry Goods.

NEW YORK, May 11.—The dry goods market is without much animation, yet there is a little more doing in styles of dress goods, which are offered at reduced rates; Dolly Varden styles, which recently were all the rage, have become less popular, and being in ample supply, jobbers have found it necessary to break the price of the least desirable patterns. Prints are offered at 11½c, but some of the best makes are still held at 12½c. The printing cloth market has become less buoyant and prices have fallen over one cent per yard. There is a nominal price for standard cloth, but goods could be made at a profit at 7c, if not less, and there is every prospect that prices will further decline, in which event printers will stock up, and the prices of calicos will once more settle down to figures at which they can be retailed and handled with some profit. Lawns of the best makes have been reduced by agents and jobbers to 16½c, and Pacific Mills percales 22½c. Paper cambrics are reduced to 13c; some of the leading makes of muslins are reduced ½c to 1c per yard, but they are goods that perhaps were held a little too high, as most staple goods, as a general thing, remain without much alteration in price.

## RIVER NEWS.

The river continues to recede steadily at this point, with 3 feet 7 inches in the channel. There was every appearance of rain on Saturday evening, but yesterday it was clear and cooler, and, consequently, the prospects for more water, at this writing, are not, we regret to state, very encouraging.

The Juniata arrived from Cincinnati on Saturday morning before daylight, with all the freight she could bring on the water. She made the run from port to port in three days and a half, which is remarkably good time for a boat of her capacity on such a low stage of water, and, besides, she lost 10 or 12 hours on the way taking and discharging freight. As will be seen by card, she will leave on her return trip to-day at noon, and passengers and shippers should bear this in mind.

The Bellevernon departed for St. Louis on Saturday forenoon, with a moderate freight list, though it is likely she had all she could take on the water.

The Mollie Ebert, from St. Louis, is over due, but it is likely she is delayed by low water.

The Lucy Bertram, at last accounts, yesterday, was down about the foot of Brunot—it is likely she will be found at the wharf this morning. She was lightened off "Merriman" by the L. C. McCormick.

The West Virginia, from Geneva, arrived and departed as usual.

Capt. Geo. D. Moore, an old Pittsburgh boatman, is to command of the Lucy Bertram. Capt. Moore is now a resident of St. Louis.

There is no improvement to note in business at the landing, and further, the prospects are not very bright.

The Brill, Capt. M. A. Cox, is announced for Nashville forthwith. She is an excellent low water boat.

Capt. J. T. Stockdale was in Cincinnati on Friday.

—A private dispatch from Chicago, says . There is great excitement here among steamboatmen, at the action of the U. S. inspectors in summarily tying up all steam vessels not provided with certain gauges and valves and other appliances required by the Government. It is claimed that these articles are of eastern make and cannot be obtained here, and it is felt that outrageous injustice has been done to our commerce by this action. The order was modified yesterday, and boats allowed to leave after giving guarantees.

—A St. Louis paper says: The Thompson Dean is getting faster every trip. She arrived at New Orleans, having made a regular business trip from Cairo to New Orleans in three days and twenty-four hours. It is thought that Capt. Pepper will take the Dean to Evansville to take the shine out of the Tom Silver and the Susie Shields.

—The Cincinnati *Chronicle* says: It was made public through the newspapers the other day that 40 car loads of pig iron were shipped South. This was an error. The iron was shipped from Kenton Furnace, Gaylord Iron & Pipe Company, Newport, over the Newport bridge, and to Pittsburgh.

—The Shreveport *Southwestern*, of the 4th, says: We abandon the idea that there is a boat from Cincinnati on her way to this place. We clung to it as long as we could reasonably do so, hoped against hope, but are forced to surrender at last.

—A dispatch from Huntingdon, dated on Friday, says: The Boaz, with barges, passed up. The Hornet No. 2, with a coal tow for Louisville, struck a rock on the Guyan Bar, last evening, and sunk two of her barges. She repaired damages and left at 10 this morning.

—The Missouri River Packet Company have been compelled to withdraw their boats from the Omaha trade on account of the lowness of the Leavenworth bridge.

—The next steamer built by the Memphis Packet Company, for the St. Louis and Vicksburg trade, will be called City of Greenville.

—Capt. Ben. M. Bush, an old time steamboatman, is engaged in the real estate business at Cincinnati.

—Gallipolis collected $85 wharfage last week.

—The Jessie is laid up at Gallipolis.

### Fire in East Liberty.

At 11 o'clock and 59 minutes last night an alarm was struck from box 95, Penn and Centre avenues, East Liberty, caused by a fire in Thomas' clothing store. At 5 minutes past 1 the fire was out. The building was entirely destroyed. Loss unknown.

### Music in West Park, Allegheny.

We think that Mayor Callow, of Allegheny City, by deciding in favor of the Masonic Band playing in the West Park, last Saturday evening, was proper. We have learned that a large majority of its citizens heartily endorse having music at such places where they congregate for pleasure. The councilmen by refusing to allow the above-named band that privilege, have greatly mistaken the state of popular opinion on that subject.

### The Coroner's Inquest.

The body of the man found drowned at the foot af Market street on Friday was inentified by Coroner West on Saturday. He was a deck hand, employed on the tow boat Rover, named George Barker. It was ascertained that the person deceased had been employed on the Rover at Cairo, on her way North. On the arrival of the boat here on Saturday evening last, Baker, in company with a man named Beltzer, went up town the same evening to make purchases, returning at eleven o'clock. The watchman who was on the boat at the time, stated that they were "perfectly full of beer" when they returned. They left their merchandise aboard the boat and went up town again. This was the last seen of either until Baker's body was found. The supposition is that they partook of more beer, and on their return to the boat to quarter for the night, fell into the river and were drowned. The watchman had left the boat and was not before the inquest. He made the remark above quoted to another party, when talking of the disappearance of the two men. A verdict of accidental drowning was rendered.

### Lodge Established of the A. J. O. K. S. B.

There was a very important convention of our Jewish fellow citizens and delegates from abroad held in this city yesterday, for the purpose of instituting and establishing a lodge of the time-honored and strong order of A. J. O. K's B. The business was of course conducted with closed doors. The Lodge will be known as the Standard No. 76. The following gentlemen were duly installed as the officers for the ensuing term by A. L. Reinstine, Esq., of Philadelphia, the G. S., of the order:

G. N.—M. W. Williams, Esq., of Philadelphia.
G. C.—E. Nunes, Esq., of Philadelphia.
G. S.—A. T. Jones, Esq., of Philadelphia.
W. A.—A. H. Fisher, of Pittsburgh.
Nassi.—Emanuel DeRoy, of Pittsburgh.
C.—N. Levy, of Pittsburgh.

The lodge rooms were beautifully decorated with cut and growing flowers and trimmed with banners and legendary mottos. Each member wore a button hole boquet appropriately supplied by the local Committee of Arrangements. The entire body partook of a most sumptuous wine dinner at the Monongahela House where they were the guests of our hospitable, genious and genial fellow citizen T. Tobias, Esq. The guests expressed themselves as much pleased with our city and its people. The ceremonies appropriately closed last evening with interesting exercises.

## CRUSHED TO DEATH.

### Brakeman Killed at the Outer Depot of the Pennsylvania Railroad—Coroner Inquest and Verdict.

Yesterday afternoon about two o'clock a brakeman named Joseph Squire was killed at the outer depot of the Pennsylvania Central Railroad. A fellow-brakeman had taken a section of six cars towards the depot. The deceased followed him with a section of three cars, and the conductor followed after with another section of six cars. While Squires was standing between the first two sections endeavoring to make the coupling the conductor supposing that he had finished his work, backed the cars under his charge down to where the others were. The deceased was thrown beneath the train, and part of it past over his body, killing him instantly. He was a young man and had been in the employ of the company some three months. He boarded with Mrs. House, at Minersville, in the Thirteenth ward. His parents reside in one of the Western States, and two of his sisters and a brother reside in this city. The Coroner held an inquest on the remains and the jury rendered a verdict of accidental death.

## A CHILD SMOTHERED TO DEATH.

### Two Children Buried Alive—One of them Smothered to Death—The Coroner's Inquest.

An accident occurred in Allegheny City, Saturday morning that resulted in the death of a little child and the severe injury of another. Two little boys, named Peter and Philip Richie, sons of Robert Richie, were engaged in playing near a sand bank near a second bank owned by David Graham, that is located on Manhatten street, near Page street. While the children were at play, the bank unfortunately caved in, and they were buried underneath the same. A number of persons who happened to witness the same went promptly to their relief. After near an hour's hard work at digging the boys were rescued. The youngest one, Philip, six years of age, had breathed his last.

An inquest was held yesterday morning on the body of Phillip P. Ritchie. The jury returned a verdict that deceased came to his death from asphyxie, caused by the accidental caving in of a sand bank. The jury recommended that the owner of said bank put a fence around the bank for the future protection of life.

## NEAR A MURDER.

### An Officer's Life Jeopardized—The Prisoner Shoots at a Constable and Misses His Mark—Riot in Brownstown.

At the American Iron Works on Saturday, the employes were paid their wages, and as usual, gin-mills and lager beer saloons were extensively patronized, and the result was boisterous conduct and drunken rows. The towns of Ormsby and Brownstown, in fact, were governed by a tumultuous crowd, and a series of fights were kept up from early dawn till near mid-night. Mob violence ruled the hour.

We learn from Justice Smoltz that he was powerless to disperse the mob, for want of sufficient police. The Justice, personally, made an attempt to make one arrest, and in this effort was successful. The prisoner's name is Felix Rodgers. He was turned over to constable Jos. McCoy. The prisoner was taken to the lock-up, and while in the act of locking the door upon him, he suddenly drew a pistol and fired at McCoy, but fortunately the shot missed him. The ball passed through the constable's pants, near to his body.

Here is another practical illustration of the disadvantages of not being consolidated with Pittsburgh. If Pittsburgh police patrolled it strictly, life, body and limb of every citizen would enjoy perfect safety.

## EIGHT HOUSES BURNED.

### The Department Reaches the Scene in one Hour—Defective Wires—Eight Tenement Houses Destroyed.

A fire broke out at three o'clock yesterday morning in a row of frame tenement houses in what is known as "Goat Town," on Second avenue. An alarm was struck from box 41, but failed to bring out the department. Boxes 37 and 91 were then pulled but brought no respond. When Fire Marshall Butler arrived at the fire, one hour after the first alarm was struck, none of the department were on the ground. He immediately dispatched officer Murray to the central alarm office and found that no alarm had been received. Box 41 was then struck from the central station which had the desired effect.

By this time, however, eight frame tenement houses, worth perhaps one hundred dollars each, were destroyed. Three adjoining houses, one frame and two of brick, were injured to the amount of about four hundred dollars. The origin of the fire is unknown.

While the unfortunate families who were burned out are deserving of every sympathy, we can but consider how truly fortunate it was that the fire did not occur in a densely populated or business portion of the city. With the fire left to itself as long as was this one the destruction of property would have been inconceivably large.

Just here it may not be inappropriate to suggest that this matter should receive an early and thorough investigation. If it is to require an hour to get an alarm to the department we may soon expect an immitation of Chicago.

A MECHANICS' LIBRARY is being established in East Birmingham, in the room formerly occupied by the Passenger Railway Company. The place has been neatly arranged for the purpose, and the collection of books, although not large, is good.

MICHAEL CASTINE was seriously scalded on last Saturday at the Clinton Iron Works in the Monongahela Borough, by the explosion of a cylinder containing a large mass of red hot iron which he was trying to cool by pouring water upon it.

TWO SPORTS who were driving down Federal street, Allegheny, about nine o'clock last evening, at a rather rapid rate, run over an old man who was crossing the street. He was taken up and carried into a drug store where he soon recovered.

DR. TUMBLETY, the celebrated Indian Herb Doctor, who is now practicing in this city, has been all around the world, and has a perfect museum of friendly and professional autographic letters from many of the most eminent people in it, addressed to him.

A CORRESPONDENT at Casselman, who does not give his name, charges that trains on the railroad are run at a reckless rate of speed through that town, to the great danger of life, limb and property. There should be left no cause for such a complaint.

A BRAKEMAN named George Hall, on the Allegheny Valley Railroad, had one of his feet badly crushed. While coupling a car he stepped in front of a locomotive approaching on another track. He fortunately clung to the cow catcher, which, no doubt, saved his life.

A ROW occurred on Chestnut street, Allegheny, late Saturday night which resulted in the stabbing of a man named Horner, and a very severe injury to a policeman who was knocked down with a brick while attempting to make an arrest. The parties all escaped.

WE ARE informed that Mr. Kerfoot, of Dayton, Ohio, a brother of Bishop Kerfoot, was not, as stated in an item in Saturday's paper, a member of the Methodist Church, but of the Episcopal. The Methodist Church building was very kindly lent for the funeral services, which were those of the Episcopal, not of the Methodist Church.

A DRUNK MAN named Horner fell through a railing last evening on Troy Hill, a distance of about thirty feet, lighting upon his head. He was taken up in an insensible condition and taken to the Allegheny lock-up, where Dr. B. B. Smith attended him. Though no bones were broken, the physician thinks he is suffering with concussion of the brain.

THE Coroner's inquest on the body of Miss O'Keefe was concluded on last Saturday. Notwithstanding the sensational stories in regard to the drowning, the evidence showed that it was entirely accidental. The skiff was upset by running against a stone, and every effort was made by the men to save Miss O'Keefe, but without success. The jury returned a verdict of accidental drowning.

THE suffering condition of our fellow-citizens in Somerset County should receive from the hands of our well-to-do citizens contributions, as will be most conducive to their present destitute condition. Among the most essential articles appropriate to send them would be food and clothing of all kinds—both the raw and manufactured material. There should be no delay in this matter, for now is the pressing need.

LAST NIGHT as car No. 11 of the Pittsburgh and Birmingham road was making its last trip, between Fifth and Sixth streets, an intoxicated man jumped off while the car was in rapid motion, striking his head on the step with sufficient force to lay him senseless. He was picked up, after a time, and his injuries were not so serious as might be expected, considering the fall he received; but it seemed indeed, rather to have had a straightening effect upon him.

PROCEEDINGS in ejectment were instituted on Saturday in the Prothonotary's office, by Peter McGee, against Manus McLaughlin, et al. The property involved in the case includes a block of dwelling houses in the Fifth ward, Pittsburgh, situated on the northwest corner of Webster avenue and Washington street, containing a front on Webster avenue of twenty-eight feet, and extending back along Washington street one hundred feet to Poplar alley, the right of possession of which is claimed to be in the plaintiff and not in the defendants.

PAY DAY at the American Iron Works' was the occasion of great joy to a number of people engaged there. Some took occasion to show their appreciation of the event by going straightway and depositing in a place of safety what was left of their hard earnings after paying their indebtedness; others, having near and dear friends abroad paid the passage money for one or perhaps a whole family to their adopted home. Others again made their first or last payment on the home of comfort which industry is sure to acquire, when properly applied. There are those, to their great credit, who spend every cent of their wages in dissipation, not caring whether the following morning after their month's income had been paid, would find a cent in their pockets above what would pay the fine incurred by their wantonness.

## POLICE NOTES.

### Brief Mention of Criminalities.

John Donaldson, for vagrancy, was sent to the Work House for thirty days.

Andrew Kalthaller, who was arrested on a charge of selling spoiled mutton, plead guilty and was fined twenty-five dollars and costs by Mayor Callow.

James Porter was required to pay a fine of one hundred dollars and costs by Mayor Blackmore for resisting an officer. Porter was behaving in a disorderly manner on Penn street and officer Coulson requested him to be quiet. He payed no attention to the officer's suggestion, and when Coulson attempted to arrest him he fought the officer, abusing him severely.

Margaret Hunter and Ann Noonan, were charged with being drunk and disorderly conduct at a house, near McGee, on Fifth avenue. Sentenced to five days to county jail.

Thomas Sands arrested about 4 o'clock, P. M., near same locality, for abusing a child. Sent to the lock-up for the night. To be tried this morning.

William Thompson, Teddy McCarthney and Morris Friesel were arrested for disorderly conduct. Interfering with firemen. To be tried this morning. McCarthney deposited $100 for his appearance. The two others held for trial.

The police made a raid on two houses of ill-fame on Saturday night in Allegheny, capturing five women and eight men. They were yesterday each fined twenty-five dollars by Mayor Callow.

A drunken negro named Smith visited the house of his brother, on East street, Allegheny, on last Saturdaay night, and abused and injured the wife of his brother, threatening to kill her. Her husband attempted to put the drunken man out, but only succeeded after he had struck him several blows over the head with a poker. An officer was then called and Smith was taken to the lock-up. He was released yesterday on payment of costs.

John Leonard was arrested by Officer William Kelley, on Webster avenue, last night, for disorderly conduct, and while in transit resisted the officer by attempting to maim him. Fined $50. Paid.

Peter Herington, for abusing his family, was fined $50.00, in default of which he was sent to the Work House for sixty days.

Francis Nelson, for disorderly conduct and striking an officer, was fined $25.00 and sent to the Work House for thirty days.

Not a single case of drunkenness or disorderly conduct is reported from Burgess Salisbury's district for Saturday night, notwithstanding it was pay day in that locality.

The Mayor's police attended Mt. Washington yesterday, for the purpose of keeping order in that vicinity, which on last Sunday was so very disorderly, and everthing passed off quietly.

Elizabeth McNutt before the Mayor for vagrancy, ninety days to Work House.

George Doyle, drunk, and insulted Peter O'Rouic and wife. Tried and fined $3.00 and costs, and five days to jail in default.

Jacob Harris and Thomas Davis, arrested for jostling against ladies on the street. Tried, fined $5.00 and costs. Davis left a deposit of $6.00 for his appearance, which was forfeited.

Anton Ochse, a German, arrived here to-day on the emigrant train. He started away from the depot in company with a female emigrant up near the Basin. His conduct was strange—in fact, bordering on the insane, which had much to do in attracting the attention of the officer, and led to his arrest. After he was securely domiciled in his cell for the night, he took a belt off his person and handed it to one of the officers of the institution. It contained the following amount of gold coin: 500 francs, 5 sovereigns, 1 guinea, British, $77, American, and $1.35 in currency.

## A DESTRUCTIVE FIRE.

### The White Lead Works of B. L. Fahnestock and Co. Burned—Loss $150,000—Four Other Buildings Destroyed—Supposed Incendiarism.

At about half past two o'clock on yesterday afternoon, an alarm of fire was struck from box 61, corner of Penn and Seventeenth streets. From some defect of the wires the department failed to get the alarm till several moments had elapsed; and although a second alarm was sounded the "Independence" failed to receive notice of the fire till a messenger was sent directly to the engine house. By the time the department arrived upon the ground the White Lead Works of B. L. Fahnestock & Co., situated on Liberty street near Twentieth, were discovered to be in flames, and so rapidly did the fire burn when once fairly into the immense quantity of inflammable material, that water seemed to have no effect in checking its progress.

An immense excitement prevailed among the vast crowd which had assembled at the fire, and the attention of a dozen policemen was necessary to keep the crowd at a safe distance from the falling debris. The families living near the burning building began to move their property, and seemed to exercise that proverbial judgment in selecting the most valuable of their possessions. One old lady stood in the second story of her burning building, and, with great deliberation, carefully handed down two or three old chairs and a rusty old waiter.

In a very few minutes the flames had spread to three two-story brick houses adjoining the Lead Works, and notwithstanding two or three streams of water were immediately turned on them, they were entirely burned out.

THE BUILDING.

The White Lead Works is a three story brick building fronting on Liberty street, near Twentieth, and running back to Spring alley. It is owned by Messrs. B. L. Fahnestock & Co., the firm consisting of Messrs. B. L. Fahnestock, B. S. Fahnestock and B. F. Vandevort. The western part of the building, including the entire works and the large stock which the firm had on hand which included the most valuable portion of the works were entirely destroyed. Nothing, in fact, was saved except the corroding house. The fire occurred at a very unfortunate time, as the firm at this season have an unusually large stock of colors. The loss is estimated by one of the firm at one hundred and fifty thousand dollars, on which there is about sixty thousand dollars insurance, in the following companies: $5,000 each in the North America, Hartford, Allegheny, International M. and M., Delaware Mutual, Peoples, Cash, Citizens', Western, Monongahela, and $2,500 each in the Union, of Bangor, Maine, and Eastern, making in all $60,000.

M. Barrett owned two of the other four buildings which were destroyed, and M. Seibert two. The loss on the four amounted to about five thousand dollars, with an insurance of $2,800. Six families, who were living in the houses, lost nearly all of their household goods.

THE CAUSE.

The origin of the fire is the most profound mystery. About six o'clock, a few moments after the fire was out, Fire Marshal Butler took the sworn statement of S. Edgar, the driver, and David Curry, the watchman of the works. The men were both positive in their assertions that there was no fire whatever in the building at the time, and the origin of the fire can be attributed to no other cause than that of incendiarism. Although a great deal of the material was of a very inflammable nature, there was nothing in the building that would at all be likely to produce a spontaneous combustion. The matter will be thoroughly investigated, and if the cause was as we have guessed, Mr. Butler will doubtless ferret out the incendiary.

### Amusements in the City.

PITTSBURG OPERA-HOUSE.—There has been sixteen performances of the piece entitled the "Necromancer of Egypt." The last representation of the same took place Saturday evening. During the first week the attendance was very large, but by degrees there was a continual falling off of patrons toward its termination of the past week. The piece proved to be a great success. To-night at this favorite place of amusement we are promised what will most likely prove a rare historic treat. Mr. Sidney Marlowe, who is not unknown to our theatre-goers, is to appear in his favorite character of Richelieu, supported by the whole strength of the company. Large preparation has been made by the management to bring the piece out in the best possible style, with new and rich scenery, dresses, etc. We hope to see a large and discriminating audience present, as the occasion richly merits such an one. Mr. Marlowe is a pleasing and faithful actor, and has devoted years of close study to the part which he will appear in to-night. He is a gentleman in every way worthy of the esteem and attention of our amusement lovers, and we feel well assured will acquit himself in a highly creditable manner, and win for himself fresh laurels to wear as he goes forward in his chosen profession. Go and hear him to-night.

Bartley T. Campbell's interesting comedy of "Peril," will be produced on Thursday evening. It will include the best talent of the company, together with Miss Phillis Glover, who personates the leading character in the play. She is a lady possessed of a model symmetry of form, highly cultivated mind, and an adept in her profession as an actress. Miss Glover comes here with the well earned title of being a true exponent of nature's school of actresses. She is a true type of excellence—all that may be desired from one in her profession. She never fails to entice the undivided attention of her hearers. In speaking of the comedy the author is satisfied that it will speak for itself. Wherever it has been played, in Philadelphia, Chicago, and other places, it has received great patronage from all persons who appreciate the dramaic. The "Peril" is not of the common, but of the higher order of modern American dramas. It is possessed of cheerfulness, gracefulness and liveliness throughout. It is by no means of the sensation class, but of the higher order, calculated to wear well and be worthy of a continuous patronage.

FIFTH AVENUE OPERA HOUSE.—Messrs. Simmons & Slocum, for a long time permanently located on corner of Tenth and Arch streets, Philadelphia, will be here to-day. These distinguished minstrel performers will give their first performance this evening, at the above named place. They were greeted with a hearty welcome on their last visit here, and we bid them thrice welcome on this occasion. They were well patronized on their last visit to this city, and we presume that the same large and fashionable audiences will be extended them again. Simmons & Slocum have won for themselves a first-rate reputation as minstrels all over the country, and we have every reason to believe, that during their sojourn here that their entertainments will be crowned with success.

ACADEMY OF MUSIC.—Under the management of Mr. Beamer, the company and ballet that have appeared in the spectacle at the Opera House will give further performances. There will be a change of programme each evening, and the quality of the performances bid fair to be very satisfactory. Mr. George W. Thompson will be introduced on the first evening in a drama entitled "The Pittsburgh Detective," in which he will be aided by Miss Jennie Parker and the entire company. A new grand ballet, in which the popular premiere danseuse, Signorina Antonino, and Madamoiselles Adalie and Bertha and coryphees will appear; also a comic pantomine, the "Frolics of Co-Co," by Signor Constantine, Wm. H. Chapman, M'lle Eveline and a full corps of pantomimists. We predict for them full houses.

BURLESQUE OPERA.—One week from this evening the fascinating Mrs. Oates and her company appear at the Academy of Music in the highly entertaining burlesque of "Fortune." Their recent visit to this city afforded the lovers of music much gratification. We have every reason to think that their return here will be hailed with pleasure.

### Celestial Voices.

Persons passing along Fifth avenue cannot fail to notice the beautiful Celestes Organ signs suspending in front of S. Hamilton & Co's. Piano and Organ salesrooms, and while the beautiful proportions of the organ is portrayed to the eye, his more beautiful voicing remains to be heard. You have only to step up stairs to be so completely captivated by the Celestial sweetness of their voicing as to decide you at once and forever that the Taylor and Farley Organ is unapproachable. Everybody should have one of the celebrated instruments, and everybody can get one, as the Messrs. S. H. & Co. have just received an immense stock of them, which they propose to sell at prices and on terms to suit all, so if you cannot afford to get a high priced you can get a low priced one and be treated just as well as if you bought a $1600 instrument. Old instruments taken in exchange at their full value. Easy monthly or quarterly payments taken. Be sure and call soon at S. Hamilton & Co.'s, 51 Fifth avenue, sign of the Celestes.

## HOUSE OF REFUGE.

### Recreation of the Inmates.

On Friday evening there came off another exhibition such as we recorded a few weeks ago, in which with alternation of music and tableaux the inmates, male and female, were entertained and gratified. They were all assembled in the chapel—the boys below and the girls in the spacious gallery. A few front benches and chairs in the aisles were filled with visitors, including a goodly number of ladies. Several of the Managers were also lending the sanction of their presence and co-operation in the effort to make the occasion both pleasing and instructive. Profs. W. H. and W. B. Slack, J. M. Darling and J. N. Bebout, of the Allegheny Quartette Club, were conspigious aids in the exhibition.

The exercises commenced with a "Greeting Song by Children," led by Prof. W. H. Slack, and "Bright Angels will bear me away" quartette; followed by a tableaux "The Orphans' Dream," and picture, the Madonna; "Scatter the gems of the beautiful" quartette. Tableaux "Night and Morning," and Lady Washington, "God bless our home," quartette; "Ever the right," by children; Tableaux "Italian Statue Vase" and Mary Queen of Scotts," song and quartette. "The Moon is out To-night Love," and "Cousin Jeddediah" and the Whistling Farmerboy," by the children. Tableaux "The Three Graces" and "Madonna." Song "Crowding Awfully" by the children. Tableaux "The Poet in despair," with Mary Queen of Scotts. Quartette "Songs that we never forget." Tableaux "Dancing Girls in Repose," with "Beatrice," "Taking Advantage of Leap Year" and "Fairies Offering to the Queen." This alternation of song and tableaux, the admirable vocalizing for which the club is distinguished and the really creditable get-up of the tableaux, served to give the zest of variety to the entertainment and judging by the frequent and hearty demonstrations of applause, the guests as well as the inmates were equally gratified. The testimony of the Superintendent—the Rev. R. N. Avery—is that the effect is altogether salutary on the inmates, and Hon. T. J. Bigham, one of the managers, bore similar testimony, remarking that such occasions were like mile posts on the pathway of the children, marking pleasant epochs in the otherwise monotonous routine of study and toil, serving also to show them that although withdrawn from society and the world, and under restraint for the time, they had many friends who thought of them, cared for them and visited them. Mr. Bigham paid a just tribute to Mr. C. Yeager, one of the most zealous and useful of the managers, for his chief part in inaugurating these entertainments. We know that Mr. Yeager's heart works with his head in this matter and also that he has the glad co-operation and sanction of the experienced and talented Superintendent, who is without a peer in the mastery and discipline of such an institution. We would like to make special mention of the lady officers of the Refuge for their wonderful success in the tableaux. We say wonderful, because they were almost destitute of the accessories usually necessary to success in such matters, but we were told the ladies desired no publicity, being contented with doing all in their power for the edification and amusement of the inmates. The performances were concluded in time for the visitors to return to the city on the Erie Express at 11 P. M.

## TAKING BACK.

### Pittsburgh a Pleasant City—St. Louis and Pittsburgh on Fraternal Terms.

Recently we published a clipping from the *Journal of Commerce*, St. Louis, which subsequently also appeared in the *American Manufacturer*, of our city. The *Journal*, yesterday, makes the *amende honorable* in this wise:

Under the heading of "Hard on Pittsburgh," a leading article in a recent issue of the *American Manufacturer* quotes a paragraph in reference to that city which appeared in this journal, and comments severely upon the position taken and the uncomplimentary references made to the physical aspects of Pittsburgh and the character of its population.

In reference to this article which is quoted in the *American Manufacturer* as the expression of the *Journal of Commerce* it is proper to state, firstly, that it was only a clipped paragraph, taken from some other paper, and could in no sense be taken as the expressed opinion of this journal; and secondly, that it appeared only by an accident and without the knowledge of the managing editor or the publishers of the paper. Simple motives of interest as well as a regard for fact would have prevented its publication had it been noticed.

The paragraph in question refers to Pittsburgh as a city, filthy, ill governed, crowded with an ignorant and degraded population and with all its wealth in the hands of mean and narrow minded men. Not a single one of these statements has the least foundation in fact, and we are grateful to the paper misquoting us for calling attention to the paragraph, that an opportunity is given to refute the slanderous assertions made. Pittsburgh is undoubtedly smoky. It could not be otherwise with its vast industries, but in point of general cleanliness and healthfulness it will compare with most Western cities. As far as the character of the local government is concerned, the paragraph referred to is the only instance where we have seen a reflection made regarding its conduct, and the population of Pittsburgh while containing large numbers of operatives in the mills and manufactories, has also a refined and cultivated class equal in every respect, socially and morally, to the best classes of other cities. The proprietors of this paper have intimate relations with many of the leading business men of Pittsburgh, and know them to be enterprising and liberal, and it is these men who have contributed so much to the growth and prosperity of their city, and the families of these men that form a society, intelligent, liberal-minded and cultivated. Such is the real opinion of this journal regarding the character of Pittsburgh and its people, and the editors of the *American Manufacturer* should have so known, and doubtless did, at the time the objectionable paragraph was quoted and commented upon, for scarcely an issue of the *Journal of Commerce* appears which does not contain a notice of some business enterprise of Pittsburgh and its price lists are regularly quoted in our columns.

The objects and aims of St. Louis and Pittsburgh are too closely identified to make any other course than this likely to be adopted; the "Future Great" and the "Iron" city are one in the development of the manufacturing and mining interests of the country."

## MEETING AT NEW BRIGHTON.

NEW BRIGHTON, May 10, 1872.

EDITORS GAZETTE: Pursuant to a call of many Republicans for a meeting of citizens to hear addresses from Hon. J. S. Rutan and John F. Dravo, Esq., candidates for nomination to the State Senate, a respectable number of our best citizens assembled at Concert Hall this evening. The meeting opened by calling Joseph Alexander, Esq., to preside.

A. V. Gallagher was appointed Secretary. The chairman, in a few appropriate remarks, invited John F. Dravo, Esq., to address the meeting, as Hon. J. S. Rutan, was not present. Mr. Dravo, in an animated, logical and patriotic address, entertained the audience. His speech was frequently interrupted by applause. After hearing the address the meeting adjourned to assemble next Thursday evening, May 16th, in Beaver Falls, at which time Mr. Dravo consented to address the people again.

### From the New York Journal of Applied Chemistry.

Munson's tubular copper lightning rod (with spiral flanges), has received such commendation from competent judges that we cannot but call attention to the merits claimed for this device. The chief advantages which are said to be realized in this invention are that a large surface of the best conducting metal we have (namely, copper,) is used, and this metal does not easily corrode, while galvanized iron gradually wears off and rusts, and not only stains the side of the building, but is said to become a poor conductor of electricity.

**Horace Greeley** doubtless expects to carry the country by a large majority. We think such a result very doubtful unless he buys his clothes at the popular establishment of Messrs. Urling, Follansbee & Co., southwest corner of Fifth avenue and Wood street. The crowds who have purchased outfits at this establishment came away pleased with neat fitting and elegant suits, which give satisfaction in every particular.

## RAILROAD NEWS.

THE Youngstown and Chicago R. R. Co. was duly organized on Wednesday last. Fifty thousand dollars of the stock was nabbed up on the opening of the books, and the balance will soon be taken. The importance of the enterprise is so manifest, that capitalists are not slow to decide on an investment in the same, and in a few days we expect to be able to chronicle the fact that all the stock is taken, and the work under contract.—*Alliance Local.*

THE people of the city of Wheeling will vote on the 1st of June, on the proposition to subscribe $300,000 to the new railroad bridge and also $300,000 to the Wheeling and Lake Erie Railroad. A three-fifths vote is required to carry the proposition. If it shall be given, it is believed by those well informed that the success of both the bridge and the road is secured. Judging from the tone of the newspapers, and from other information received, it seems likely that the subscription will be voted.

The W. and L. E. Railroad Company is thoroughly organized. Its officers are elected and the road is under contract of construction, conditioned only on the raising of a certain amount of stock subscriptions, nearly all of which will be secured if Wheeling responds favorably. The company's engineering corps are now surveying the line.—*Steubenville Herald.*

THE Akron *Daily Beacon* gives an extract from a prominent gentleman in Defiance, Ohio, in reference to the new route from Pittsburgh to Chicago, under the auspices of the B. & O. R. R., in which the writer says:

I hope you will hold on to your faith in the Baltimore Company. They have three corps of engineers along here; are going "some slow," but having adopted the Havana instead of the New Haven line east of Tiffin, the route is looking to you, and to you it will go, I trust, if you hold out a little longer. It's the true route.

P. S. One corps is here, Mr. Randolph's son at its head, and waiting for the arrival of his father and Mr. Keyser, whom we expect daily. Two corps are in Indiana.

The newspapers along the route announce that as soon as Mr. Keyser (who is Vice President of the B. & O. company) arrives, contracts will probably be let out for the construction of the road from Tiffin to Chicago.

A BUFFALO lady, now abroad, was on Mount Vesuvius when it began its recent volcanic operations. She escaped with slight injuries.

These Lots are increasing in value daily. A rich six feet vein of Bituminous Coal underlies this property. A coal bank is open and in good working order. This bank, which gives full access to the coal underneath, will be given away with the lot on which it is situated. The coal, valued at 1½ cents per bushel, is worth $10,000. Oakdale is a well known, thriving and prosperous town, and at present contains an Academy, Female College, Malt House, Postoffice, Express Office, and a large number of handsome Dwelling Houses, and taken altogether, is a desirable place for industrious working men to settle.
